Specifically written in laymans language and designed in colour coded text for ease of understanding, this book is for newcomers, novice and experienced boaters. The Author, himself a long term professional shipwright and marine engineer, continues to cruise extensively worldwide with his family and looks forward to meeting YOU someday. No matter your plans may be simply to learn... or circumnavigate, advice is offered to save on the initial purchase of a quality vessel compatible with your cruising needs and enable everything to be contained within your budget.

Additionally, you can update your current boat to a level that will safely and economically provide the fulfilment of your dreams. If you are a beginner, all the information is here to get YOU started! What you NEED to KNOW to avoid problems from the outset and in the unlikely event they should occur... How to solve them easily and cost effectively. Once you buy this book, you'll never want to be without it... it will save you over and over again... so don't lend it out!

Between These Covers Are The Long Awaited, No Nonsense... Answers To Every Boaters "CRY FOR HELP"...
