Renovations

Have you bought a boat and you're not sure how to do it?

Do you have a boat that needs help?

An older vessel can be a source of great pleasure, and a worthy challenge to somebody with skill, but to the beginner or lesser skilled person, it can be a bottomless pit when it comes to spending money.

Initially, a good survey should have revealed the problems, but a poor survey can leave you with a "White Elephant". In such cases, professional help such as we offer can economically avoid total loss of the project, and convert your boat into a useable, or sale worthy asset. No matter what the construction material of your boat, we offer a quality "full or part" renovation service to suit your budget.
