

EARNING A LIVING as you cruise.

Once retired, many cruisers are able to live adequately on their pensions without worry. In an ideal world this would be the same for everyone, but in reality it is not so.

Suppose your pension is insufficient, or indeed... non-existent. Have you been forced to retire early or simply decided that life is passing you by... and now feel it is the time to do something about it?

Maybe you have a young family,... and feel you owe them a better, more fulfilling way of life, but of course, they still need an education. For those of you in this situation, there is a section which will describe in detail about Home Schooling and other options available to you.

Let's face it, life is NOT a rehearsal and we are only here for an incredibly short blink of an eye in the annals of time, so it is the wise person who makes the best of it. Some people talk of "luck" without realising that the word means "responding to opportunity... the way things happen". You're "lucky" to have a boat to go cruising? Maybe, Yes... but YOU took the opportunity, you made it happen... you wanted to do it... you DID it... FACT IS... YOU'VE earned it!

Without exception, everybody on this planet has a COMMON HABIT, the desire to Eat and Drink on a regular basis... Especially GROWING KIDS. How do you propose to sustain the habit without a steady job? It CAN be done as proven by many, but it must be decided how much YOU really need in your new life. You won't need as much as the person who is landlocked, but to pursue stress free cruising, some land-based sacrifices will have to be made, but first...

.....HOW TO SURVIVE FINANCIALLY.
